

2.1P: In Person Check-in 1 – Answer Sheet

1. Briefly describe your prior experience with programming, e.g., industrial experience and which programming units/online courses you have studied.
I have experience coding in Ruby, Python, HTML, CSS, MySQL, PHP and a little of C++ I have taken Intro to programming and Computer inquiry project units at universities
2. What do you think will be most challenging about object-oriented programming? In addition, what skills/goals do you expect to gain after studying this unit?
The shift of the coding language with the classes and objects and I would like to learn more languages
3. What can you do to prepare yourself for that challenge (resources you can use, approach to studying etc.)?
W3schools is always good and watch tutorials helps to
4. Is there anything you think the teaching staff should know to best help you this semester?
I have ADHD and autism so I get distracted very very easily
